Removed United Encoding Altimeter, P/N: 5035P-P22, S/N: 1418 and sent the unit in for repair. Received same part and serial number unit back from Century Instruments, reference Work Order #K138281 and installed in aircraft. Performed static leak check of system I/A/W FAR part 43 Appendix E. The equipment performed satisfactorily and did not adversely affect existing components or systems in the aircraft as required by 14 CFR 23.1301. The maintenance involved on this aircraft identified above was done in accordance with current regulations of the FAA and is approved for return to service this date. Pertinent details of the maintenance are on file at this repair station under order #1245.

Signed: 

FAA CRS #D3FR571X

I certify that the altimeter and static system tests required by 14 CFR § 91.411 have been performed and found to comply with 14 CFR part 43, appendix E. The altimeter P/N: 5035P-P22, S/N: 1418 was tested and certified to 20,000 feet. Date: 11/10/2010

1. Removed, resealed and reinstalled L/H brake caliper. Serviced and bled brake system following reinstallation.
2. Installed compass correction card. Aircraft needs taken to compass rows to acquire compass correction notes/numbers.
3. Installed standoff between battery cable and #6 EGT probe to prevent chaffing.
4. Performed inspection/weight check of cabin fire extinguisher. Weight tested to 4lbs, 8ozs. Next due inspection: May-2023.
5. Removed and replaced L/H brake linings P/N: 066-06200.

All maintenance completed in accordance with applicable sections of the manufacturer's maintenance manual. All operational, rigging and functional checks tested satisfactorily. I certify that the maintenance identified above has been inspected and the items are approved for return to service. Details of work performed are on file with Savannah Aviation under work order: WO 008510.

RECORD  
TACH  
TIME

The purpose of this alteration is to install a JPI EDM 900 electronic engine instrument.

Removed:

1. One United Instruments 6331 Man/Fuel pressure.
2. One Mitchell 98480-23 Mechanical Tachometer.
3. One Alcor EGT Gauge Flight Instrument.
4. One Stewart Warner Oil Cluster.
5. One Alcor EGT Probe.
6. One Alcor CHT Probe.

Installed:

1. One JPI electronic engine system including: EDM-900 engine monitor, one EGT Probe, one CHT Probe, one Fuel Transducer, one MAP Manifold Pressure Transducer, one Oil-P Oil Pressure Transducer, one Fuel-P Fuel Pressure Transducer, one RPM Transducer, one Oil Temp Probe, one OAT Probe, one Shunt, one RAL Remote Alarm Light, one P1 wire harness, one P2 wire harness, one P3 wire harness, one P4 wire Harness, one P5 wire harness IAW STC SA01435SE.
2. Above parts IAW workmanship standards per AC43-13-1B and in compliance with 14 CFR Part 43.13.
3. All wiring was accomplished IAW AC43.13-1B paragraphs 207 a through g.

Updated:

1. The pilot's operating handbook by adding the FAA approved Airplane Flight Manual Supplement as provided by the manufacturer.
2. The aircraft's maintenance records by supplying the Instructions for Continued Airworthiness as provided by the manufacturer.
3. Weight & Balance and Equipment List amended this date IAW AC 43.13-1B, paragraphs 10-1 to 10-2, 10-14, 10-19 to 10-20.
4. Log Book Entry completed IAW FAR 43.5, 43.9, 43.11 & 43.13.

Weight & Balance:

Empty Weight: 2209.87      CG: 84.86      Moment: 187520.62      Useful Load: 1390.13

Revised:

Instructions for Continued Airworthiness of installed systems are assured by maintaining IAW the listed manuals.
