

THINK beyond the hype. Let us show you **THE MOST CAPABLE ALL AROUND** plane in its class.
Don't buy from a brochure, hype or video. Touch it, fly it, feel it.

Most importantly, compare it. Be an informed pilot, not a groupie.

**American Champion Scout & Denali Scout.
Two Incredible choices.**

**Now with Garmin® G3X VFR and IFR Panels!
Autopilot Now Available!**

- Strongest, widest gear
- Lowest insurance and accident rates
- Most forgiving ground handling
- Fastest
- Most range - 70 gallons!
- Fuselage design is MUCH stronger than the competition's plane
- "Y truss fuselage" that is beastly strong
- Wing design eats up turbulence
- Great resale - hard to find used Scouts

- Big cropduster following. (These guys know planes)
- Rated to 2600 in Restricted category. Think it's strong?
- Super comfortable wide fuselage w/ best speed
- FLAT floor with real heaters. Ducting below floor, metal belly access/durability
- Don't suffer frostbite to gain 50 feet in takeoff distance - make your wife happy!
- THE best visibility. ALL bubble windows
- Wide, comfortable rear seat that sits high for

passenger comfort.

- Did we say GREAT heater?
- 2 Engine choices - choose from the 180 hp Scout or 210 hp Denali

Proven, strong "legacy" design. We laugh at disparaging comments. If you want to be crammed into our competition, freezing your butts off, getting beat to death in mild turbulence, to take off 50 feet shorter, well... we'll just leave it at that.

Bring Your Expectations, Let Us Exceed Them
