Flight Training Program Guide

GET THE COMPETITIVE EDGE

VISIT ATPFlightSchool.com FOR MORE PROGRAMS & CURRENT SPECIALS
Airlne Transport Professionals

ATP provides professional, accelerated flight training at 24 flight schools nationwide. ATP’s Airline Training Programs™ prepare students for airline pilot careers with an emphasis on nationwide flying experience in multi-engine aircraft. Additional flight training courses include ATP Certificates, Multi-Engine Ratings, ATP Written & FEX Written Preps & Exams, and CFIs. When you compare the scale of ATP’s flight training operations to other flight schools, academies, colleges and FBOs, there’s no wonder why ATP is the most respected name in pilot certification.

ATP Facts

- Flight Training: Over 7,000 hours of flight training and nationwide cross-country flight experience per month.
- Certification: Over 3,300 FAA certificates issued annually.
- Training fleet: 143 aircraft. 86 multi-engine, 56 single-engine, 1 Citation Jet. ATP just purchased 5 new Piper Seminoles.
- Flight Training Devices (FTDs): 37 multi-engine FTDs.
- Regional Jet FTDs: 5 CRJ-200 FTDs located in Dallas, Jacksonville, and Phoenix.
- Locations: 24 flight school locations across the U.S.
- Reputation: 70% of ATP’s students are referred by friends.
- Flight Instructors: ATP Flight Instructors are the highest-paid entry-level CFIs in the country, with more multi-engine experience than any other flight instructors of comparable total time. ATP continues to hire CFIs from the Airline Career Pilot Program.
- Mechanics: ATP’s mechanics are the most experienced and highest paid in the flight training industry. On average, each ATP mechanic has been with ATP over five years.

No other flight school, academy, or FBO offers a better value than ATP.

## CFI

### Certified Flight Instructor Program

ATP’s CFI Program provides all ground and flight instruction necessary for the three CFIs. This fast, efficient, and thorough program includes all study materials.

- **CFI Multi**
  - $5,995 / 14 Days

For pilots with less multi-engine experience, ATP offers a 15-Hour CFI Program to meet multi-engine PIC requirements for $6,995.

- **Offered in Atlanta, Fort Lauderdale, Jacksonville, and Las Vegas.**

### Multi-Engine CFI Ratings

These Certified Flight Instructor programs provide all necessary ground and flight instruction required by the Practical Test Standards.

- **Multi-Engine Instructor (MEI)**
  - $1,995 / 2 Days
  - This 2 day course includes two training flights between 1.5 to 2 hours and use of the aircraft for the checkride.
  - Offered at 21 ATP Locations, check ATPFlightSchool.com.

- **Multi-Engine Instructor (MEI) – 15 Hour**
  - $4,495 / 5 Days
  - This 5 day course includes up to 13.5 hours of flight training and the use of the aircraft for the checkride.
  - Offered at All ATP Locations.

- **Multi-Engine Instrument Instructor (II)**
  - $1,995 / 3 Days
  - This 3 day course includes two training flights between 1.5 to 2 hours each and the use of the aircraft for the checkride.
  - Offered at 21 ATP Locations, check ATPFlightSchool.com.

- **Multi-Engine & Instrument Instructor (MEI & II)**
  - $2,995 / 5 Days
  - This 5 day course includes up to 7 hours of flight training and the use of the aircraft for the two checkrides.
  - Offered at All ATP Locations.

- **Multi-Engine & Instrument Instructor (MEI & II) – 15 Hour**
  - $4,695 / 5 Days
  - This 5 day course includes up to 13.5 hours of flight training and use of the aircraft for the two checkrides.
  - Offered at All ATP Locations.

### FAA Knowledge Tests

**Our format is the simplest and easiest to retain.**

### Private/Instrument

Ace your FAA written using ATP’s computerized, half-day written exam primer! After a formal ground school or home-study program, ATP’s primer will help you focus, recall, and apply concepts.

- **Private (PAR)**
  - **Just $150**
  - Half Day
  - for Primer & Exam

- **Instrument (IRA)**
  - **Just $295**
  - 1 Day
  - for Full Prep & Exam

**Offered at 23 ATP Locations, check ATPFlightSchool.com.**

### ATP/FEX

Get your ATP or FEX written for just $200 when combined with any flight program.

- **ATP (ATP 121)**
  - **Just $295**
  - 1 Day
  - for Full Prep & Exam

- **Flight Engineer (FEX)**
  - **Just $150**
  - Half Day
  - for Primer & Exam

**Offered at 23 ATP Locations, check ATPFlightSchool.com.**

- **“Thank you so much for the great experience ATP. I truly feel that I could not have done nearly as well on the test as I did without your courteous and professional staff, along with your ATP study prep course. I am a completely satisfied and happy client. I will (and already have) recommend your study prep course to anyone who is about to take their ATP written. Thank you so much to everyone at your facility who played a part in my success.”**

  Sincerely, Rick Rawlinson
**Multi-Engine Ratings**

**Multi-Engine Training**
ATP’s multi-engine rating program adds multi-engine privileges to your existing Private or Commercial Pilot Certificate. All necessary ground and flight instruction required by the Multi-Engine Practical Test Standards is included.

ATP will send you the “Piper Seminole Training Supplement” before your training. This booklet covers multi-engine aerodynamics, aircraft systems, checklist procedures, flight procedures, weight & balance, and a checkride oral review. All checklists, required charts, instrument approach plates, Piper’s “Seminole Information Manual,” and the Seminole POH will be made available at the flight training center.

**Multi-Engine Rating 10 Hour** ...................................................... $2,995 / 4 Days
This 4 day course provides up to 8.5 hours of flight training and the use of the aircraft for the checkride.

| Offered at All ATP Locations.

**Multi-Engine Rating 15 Hour** ...................................................... $4,495 / 5 Days
This 5 day course provides up to 13.5 hours of flight training and the use of the aircraft for the checkride.

| Offered at All ATP Locations.

**Why Choose ATP for your Multi-Engine Rating?**

**More Experience & More Resources**
ATP provides more multi-engine flight training and certification than any other flight school in the nation. Our aircraft fly over 7,000 hours each month, and more than 3,300 FAA certifications and ratings are achieved by ATP customers each year.

With flight training centers located coast-to-coast, and a fleet of 86 multi-engine Piper Seminoles, ATP is in a unique position to complete your flight training on time, at exactly the advertised cost.

**Standardized Aircraft**
All ATP aircraft feature the exact same avionics suite. All 48 2000-and-later model and 40 refurbished pre-2000 model Piper Seminoles are equipped with an HSI and Garmin GNS-430 moving map GPS.

**Standardized Procedures**
ATP operates within 12 different Flight Standards District Offices (FSDOs), but we use the exact same operating procedures under all jurisdictions. This attests to the quality of training and standardization that we uphold.

**ATP Approved Examiners**
We work with the same Designated Pilot Examiners (DPEs) day in and day out—they are familiar with our standardized training procedures and checklists. This relationship ensures a low-stress checkride, for which you will be extremely well prepared.

**Free Online Training Module**
Learn the basics of multi-engine aerodynamics, engine-out flight characteristics, and performance considerations. ATP trains more pilots to fly twin-engine aircraft than any other flight school or academy. Check out this short online training module to get a glimpse at what your flight training will entail.

ATPFlightSchool.com/IntroFlight

Designated Pilot Examiners’ fees are not included in the course cost and vary by location. This fee is paid in cash to the examiner at the time of your check ride.
### ATP’s Fleet of 5 CRJ-200 FTDs
ATP’s CRJ-200 Flight Training Devices are more than just cockpit procedures trainers. These FTDs fully implement all systems on the CRJ-200 aircraft and have an FAA-approved flight model. Combined with a projection visual system, our FTDs offer maximum realism.

### Highly-Qualified Instructors
Regional airline pilots teach all classroom-style ground school and FTD sessions. They bring you real-world experience from flying the line in modern regional airliners. As a pilot in the Regional Jet programs, you will greatly benefit from the teaching, mentoring, and networking opportunities provided by ATP’s RJ instructors.

### Scheduling & Availability
Classes are offered weekly at most locations. Please call for availability. Schedule at least 30 days in advance to allow adequate time to study before arrival. Scheduling a confirmed class date requires a $995 non-refundable payment towards your course cost. After scheduling, we will send your non-returnable training materials and update your PilotPool.com profile for advanced ranking.

### Get The Competitive Edge
ATP’s Regional Jet programs prepare you for airline interviews and airline training. The courses use the CRJ-200 as the base aircraft, but you will learn principles common to many modern jet and turbo prop airliners such as Bombardier and Embraer Regional Jets. Your Regional Jet program will give you the competitive edge with reduced hiring minimums, and increased visibility to airline recruiters on PilotPool.com

Custom Programs

Customized Commercial Finish Up Programs

Already started your flight training? Finish with ATP and receive credit for previous training and experience.

- Private Finish-Up
- Instrument Rating Finish-Up
- Commercial Finish-Up

For a custom quote, please call 800-ALL-ATPS (800-255-2877) or email admissions@allatps.com. An instructor will provide you a form of flight time and experience questions from which we will prepare a customized program quote.

“I am extremely grateful for the training that your company has provided...I under-estimated the level of effort that would be required to get the FAA signed up to the custom program designed by you. Please accept and pass on my sincerest thanks to all the kind folks who have taken part in pulling this off — they may not all realize that the prize for me is F-35 flight time, which will likely prove to be the highlight of my career as a professional test pilot.

I will be back for more once the ink dries on my ATP. Meanwhile, happy flying to you all.”

— Peter Wilson, Lead STOVL Test Pilot, F-35 Lightning II
Maximize the value of your training at ATP with exclusive access to get in front of airline recruiters.

FREE for ATP Graduates

- Get a FREE pilot profile with helpful pre-loading of ATP flight time
- Target the specific airlines you want to fly for
- Compare your ranking and project when you’ll meet minimums

Whether you’re airline qualified or working towards it, PilotPool.com will get you in front of airline recruiters. This is the first pilot recruitment tool of its kind. We allow airlines to visualize the pilot training pipeline, predict pilot supply, and begin recruitment earlier in your qualification process. With ATP’s Regional Jet programs, you gain advanced ranking over pilots without it.
